MAKING BETTER TOMORROW'S

Confidentiality

The term “confidentiality” means preserving authorized restrictions on access and disclosure, including means for protecting personal privacy and proprietary information.

We are acting with the utmost good faith in sending this information.

The data and pictures described herein, is to be considered, at all times, as commercial in confidentiality.

Narrative

The recommended programs are envisioned for Bo, Sierra Leone, West Africa to immediately;

- Inject monetary income / residuals,
- Modernize and Renovate schools,
- Create / modernize local community amenities,
- Public Transportation (MUNDA Transit)
- Assist local medical industry with supplies, and
- Create Tens of Thousand of JOBS.

We feel strongly, these programs are extremely important and beneficial to the community of Bo, that immediately, positively and dramatically impacts the lives of children and their families.

Overview

Siroco International, in conjunction with John Sparrow Community Assistance, is presenting in “good faith” our 2025-2026 “official” affiliated programs envisioned for Bo, Sierra Leone, West Africa.

Selected programs, as recommended by Siroco International’s Advisory Board, are **100%** subsidized through our humanitarian benefits.

Programs are selected by our Advisory Board, based on needs that are extremely important and beneficial to the local community that positively and dramatically impacts the lives of children and their families.

Vision

We envision a world where everyone can live life with full dignity - a world where the barriers of poverty and exclusion can be broken, and where one can have control over the decisions affecting them. We fight for a world with an economy not driven by greed and growth, but inclusivity, and social justice.

Our vision and mission define who we are, and what we aim to achieve. Guided by our core values, we strive to make a difference, not just in our humanitarian work, but in everything we do.

Our values shape our decisions, interactions, and culture, driving us closer to our vision of a better world.

John V. Sparrow

Founder - Global Chairman

- Mr. Sparrow is trusted world-wide while being respected for providing solutions to complex problems that satisfy banking and government compliance with transparency while maintaining commercial confidentiality.
- By assembling and financing capable teams suited to each project success becomes the responsibility of the team and the reward of the team.
- Born in Australia, Mr. Sparrow has traveled globally since 1997 in order to understand and remained involved in the changes throughout the world.

02. Modernization of Schools

NEW OR RENOVATION

A Modern School can be defined as a school developed for students who are living through the 4th industrial revolution and the current changing educational environment.

Research shows that high-quality school environments can boost educational outcomes, improve well-being, and strengthen communities.

Current Programs

02. Modernization of Schools

Siroco International recognizes the urgency, magnitude of extreme importance, and the immediate need in modernizing West Africa's schools.

So much so, we have designed various “made to order” program with local communities, governments, in partnering with, financing and even providing the required capital.

School modernization is a multifaceted complex process including facilities, systems, and educational practices, to enhance learning environments, efficiency, and overall educational outcomes. This often includes physical renovations / replacements, technology upgrades, and changes to curriculum and pedagogy.

Current Programs

03. Medical Supply Conduit

Siroco International recognizes the extreme importance of medical supplies consistency.

In the context of medical supplies, consistency means ensuring a reliable and predictable availability of quality products. It also involves maintaining a consistent standard of quality across different products and suppliers, as well as consistency in the processes used to manufacture and distribute these supplies.

Current Programs

04. Agriculture / Farming

In the modern world land that is underutilized or non-productive is a shrine to the culture of the past but not an asset to the people dependent on the land for their daily existence.

Many land owners have moved outside the region or country to enjoy better lives but understand their responsibility to those who are dependent on their guidance and wisdom.

When a land owner is a capable farmer who is maximizing the lands potential and is successfully farming at an economic level it is best that they continue farming and **Siroco International / Majestic Farms** provides the necessary financial capabilities to stabilize and grow operations.

08. Affordable “Low Cost” Housing Mortgage Opportunities

The modular houses have design and construction just like any other house. The only difference is they are modular, cost effective and affordable.

Affordable “Low Cost” Housing are strategies with effective budgeting and following of latest technologies which help in reducing the cost of construction through the use of locally available materials along with improved skills and technology without sacrificing the durability, performance and life of the structure.

Siroco “Affordable Housing” solutions are Cost Effective, Innovative, and Environmentally Friendly.

09. Wellness Education Programs

SUBSTANCE ABUSE PREVENTION EDUCATION AND MUCH MORE!

John Sparrow Community Assistance has great respect and admiration for the highly acclaimed D.A.R.E. (Drug Abuse Resistance Education), program that gives kids the skills they need to avoid involvement in drugs, gangs, and violence.

A series of classroom lessons that teaches children from kindergarten through 12th grade how to resist peer pressure and live productive drug and violence-free lives.

John Sparrow Community Assistance is working toward funding this or a similar program being implemented with local partners throughout the West Africa region.

Why Modular School Buildings?

School Systems / Classrooms

Photograph for illustration purposes only

Modular school systems offer a fast, affordable, and efficient way to create or expand school facilities. They are a popular choice for educational institutions due to their ability to be quickly deployed, easily adapted to changing needs, and built with more sustainable materials. Modular construction involves building components off-site in a controlled environment, then assembling them on the school site, which reduces construction time and waste.

Envisioned Example Only

Why Modular School Buildings?

Modular education complexes are the budget-friendly alternative to traditional school construction. These self-contained solutions include an array of options to accommodate the needs of your students and staff.

Readiness

Can be ready for use in a matter of weeks

Budget Friendliness

Energy Efficient

Versatility

Modular Medical Buildings?

Medical / Urgent Care Clinics

Photograph for illustration purposes only

Modular structures offer unparalleled flexibility and customization to ensure they meet the specific needs of any healthcare institution.

They stand out not just for their speed of assembly, but also for their cost-effectiveness, providing a budget-friendly alternative without compromising quality.

Additionally, they significantly reduce the common disturbances associated with on-site construction, ensuring a smoother and more efficient building process.
