Better Connected Business

#JOINTHETEAM

What We Do?

Life today is built around connectivity.

Through an ever-expanding range of products and services, we provide broadband, mobile, and telephony solutions to over 28,000 businesses across the U.K.

Excellent Package, Trips & Benefits

What makes working at SCG Consulting truly unique is a keen sense of camaraderie, fun trips, and a good lifestyle.

- An entrepreneurial spirit in a rapidly growing company
- Outstanding networking skills
- Great friends and mentors through our social calendar
- Significant net-worth through our guaranteed basic and uncapped earning opportunity

Ownership

Successful applicants will have a great opportunity at SCG Consulting through our basic, bonus, and EMI share option plan. We believe that the people who build the company should benefit by having ownership in it.

With our leadership team having trained over 5,000 students and graduates in business development, we have a proven and tested system to teach graduates how to network, prospect, and succeed in an exciting and growing industry.

Continuous Professional Business Development

You will have the opportunity to learn about the business world through exposure to different industries. You will develop a network of contacts by helping businesses to find solutions that work for them. You will see the difference this makes to the client's business and get a real sense of the sector in which you are working.

You

We are looking for people who want an opportunity to learn, develop, and grow through the business that they are working with.

We work hard, have brilliant social times, and recognize people for their efforts as well as their results.

If you have excelled at sport or in any endeavour that requires discipline, teamwork, and people skills, then we would enjoy talking to you.

Don't worry if you don't have any tech experience, we will teach you everything.

As long as you are enthusiastic, positive, and teachable we can help you to become an expert in this exciting area.

Transferable Skills

Working in an ever-changing and continuously progressive industry you will be able to gain invaluable skills to help you advance in your career. Through our 3-year comms-pro Training Program you will learn more about:

- Problem solving
- Personal motivation, organisation, and time management
- Written and verbal communication
- Leadership
- Teamwork and listening

Leading Technology That Matters

SCG Consulting offer a comprehensive 3-year comms-pro training programme designed to help graduates make the transition to business sales.

It will be an exciting learning curve and you will be mentored by some of the best trainers in the industry. There will be a supportive team around you throughout the company.

The comms industry and data usage are growing exponentially around the world and is vital to the future of business communications.

Join the Team

At SCG Consulting we like to help people grow and achieve their goals in life by coaching and helping them. You will have plenty of support, as long as you put the effort in.
