Two Companies Became One Vision

Field Services and Industrial Control Systems

Applications

Carbon Black Plants
Central Heating & Steam Plants
Chemical Plants
Correctional Facilities
Ethanol Industry
Food Processors
Forest Product Facilities
Government Facilities
Grain Processors
Hospitals
Midstream
Oil Refineries
Paper & Pulp Mills
Rubber & Tire Industry
Steel Industry
Sugar Mills
Utilities & Co-Generation Plants
Universities

We provide services, while maintaining a professional and honest culture.

We will tackle any job, no matter how big or small!

Who We Are

- Premier Combustion Services (PCS) is proudly owned and operated by The Williamson Free School of Mechanical Trades Alumni.
- PCS personnel have over 40 years of experience operating, maintaining, and improving various industrial equipment. This equipment includes burner, control, feedwater, and industrial steam systems. This ranges from utility HRSGs and field-erected boilers to Deaerator Systems and Supervisory Control.
- We are subject matter experts in steam plant operations and maintenance, NFPA burner management systems, and combustion control systems.

Global Field Services

- While we consider the United States of America our home, the world is our playground!
- Our team is strategically located throughout the United States which allows us to meet our customers' needs.
- We have previously completed projects in China, France, India, Japan, Kuwait, Malaysia, New Caledonia, and Nigeria to name a few.

We are an independent control system OEM, specializing in boiler control system design, fabrication, programming, and field-service.

Your Boiler System - Our Expertise

Who We Are

- Stanyan Hill Controls LLC (SHC) was acquired by PCS in March 2025 which expanded our capabilities.
- SHC industrial control systems are custom-tailored to each application, we stand behind what we sell. We have a wide range of experience with the leading control manufactures.
- We have experience with Allen Bradley, FireEye, Honeywell, and Triconex.
- We have sold over a thousand panels to 5 continents.

Boiler Control Packages

- We design, program, build, and test custom engineered UL listed BMS/BCS control cabinets.
- We offer technical support to troubleshoot issues and can assist remotely during startups.
- We provide factory acceptance testing
- We have the following list of packages to meet various needs:
 - PremierControl - BMS/BCS full boiler control
 - PremierSafe - BMS only
 - PremierSync - BOP plant-wide control integration
 - PremierView - SCADA
