COURSE OBJECTIVES

The objective of this educational course is to educate the user on how to be aware of and avoid "phishing" scams. Phishing attacks come in many forms, from targeting a weakness in humans to targeting technology across organizations and networks. A successful attack can expose data, spread malware infections or give access to restricted systems. The most successful way to prevent these from happening to you is to be able to identify phishing. This training course enables you to recognize and understand phishing attacks, how they occur, and know how to respond to various phishing attacks. At the end of the course, you will be able to: Understand the definition and different types of phishing; Spot different types of phishing attempts; & Know how to respond to various phishing attacks.

COURSE DETAILS

This course is an interactive/video course where the user learns through video explanations as well as interactive slides and modules. If you require a timed & monitored version of this course, you can select that option before you start the course. You can take the course anytime and anywhere, on any device. This course is completely self-paced, so you can start and stop and set your own pace. If you need to take a break during the course, you will be able to pick up at the point where you left off. At the end of the interactive/video course, you will have a completion exam to ensure you learned the material which was presented. Upon scoring a 70% or above on the end exam, you will receive a completion certificate with your name, PE#, and the date on which you completed the exam. We also keep a copy of all certificates indefinitely.
