COURSE OBJECTIVES

The objective of this educational course is to educate the user on cybersecurity. This course will provide formal security education related to cybersecurity. It will also provide some general tips for staying safe online for better workplace safety. By the end of this course learners will learn more about: The Importance of Cyber Security; Password Security; Email Security; Mobile Security & How to Protect Yourself from Digital Threats.

COURSE DETAILS

This course is an interactive/video course where the user learns through video explanations as well as interactive slides and modules. If you require a timed & monitored version of this course, you can select that option before you start the course. You can take the course anytime and anywhere, on any device. This course is completely self-paced, so you can start and stop and set your own pace. If you need to take a break during the course, you will be able to pick up at the point where you left off. At the end of the interactive/video course, you will have a completion exam to ensure you learned the material which was presented. Upon scoring a 70% or above on the end exam, you will receive a completion certificate with your name, PE#, and the date on which you completed the exam. We also keep a copy of all certificates indefinitely.
