COURSE OBJECTIVES

The objective of this educational course is to educate the user on data security. The content of this course focuses on helping the reader to understand sensitive data and the regulations that are in place to protect this data. To understand the threats to data and the breaches that result from certain cyber attacks. You will gain knowledge of administrative, technical, and physical safeguards that can be utilized to mitigate certain risks and help protect data from a breach. Upon completion of the training and passing all assessments, you will get a certification verifying you have successfully taken and passed the Data Protection course! The course includes information on: What is Data Protection; Data Protection Regulations; Administrative Safeguards; Physical Safeguards; Technical Safeguards; & Common Threats to Data.

COURSE DETAILS

This course is an interactive/video course where the user learns through video explanations as well as interactive slides and modules. If you require a timed & monitored version of this course, you can select that option before you start the course. You can take the course anytime and anywhere, on any device. This course is completely self-paced, so you can start and stop and set your own pace. If you need to take a break during the course, you will be able to pick up at the point where you left off. At the end of the interactive/video course, you will have a completion exam to ensure you learned the material which was presented. Upon scoring a 70% or above on the end exam, you will receive a completion certificate with your name, PE#, and the date on which you completed the exam. We also keep a copy of all certificates indefinitely.
