Issuance of certificate of registration; certificate of enrollment

Sec. 15. (a) The board shall issue a certificate of registration, upon the payment of the fee prescribed by the board under IC 25-1-8-2 and the fee established by section 9(b) of this chapter, to any applicant who, in the opinion of the board, has satisfactorily met all requirements of this chapter. In the case of a professional engineer, the certificate shall authorize the practice of "professional engineering". The certificate of registration shall:

- (1) show the full name of the registrant;
- (2) bear a serial number and date; and
- (3) be signed by a designee of the board.

The issuance of any certificate of registration by the board under this

chapter is evidence that the individual named on the certificate is entitled to all the rights and privileges of a registered professional engineer from the date on the certificate until it expires or is revoked.

(b) The board shall issue a certificate of enrollment upon the payment of the certificate fee prescribed by the board under IC 25-1-8-2 to any applicant who, in the opinion of the board, has satisfactorily met all of the requirements of this chapter. In the case of an engineering intern, the certificate shall state that the applicant has successfully passed the examination in engineering fundamentals and has been enrolled as an engineering intern. The certificate of enrollment shall:

- (1) show the full name of the enrollee;
- (2) bear a serial number and date; and
- (3) be signed by the director of the licensing agency.

The issuance of a certificate of enrollment by the board is evidence that the individual named on the certificate is entitled to all the rights and privileges of an engineering intern while the certificate remains unrevoked or until it expires.

Seal

Sec. 16. (a) The granting of registration extends to the registrant the authority to use a seal of a design approved by the board bearing the registrant's name, registration number, and the legend "professional engineer".

(b) During the period of time that a registrant's certificate is valid, the registrant is authorized to apply the registrant's seal to plans, specifications, studies, drawings, and reports. Applying the registrant's seal attests that:

- (1) the work embodies the engineering work of the registrant;
- (2) the registrant or an employed subordinate supervised by the registrant prepared the documents, and in the context of engineered plans "prepared" refers to the registrant's control and direction of the engineering work and design process;
- (3) the registrant assumes full professional responsibility for the documents; and
- (4) the work meets standards of acceptable engineering practice.

(c) It is unlawful for any person to stamp or seal any document with a seal after the certificate of the registrant named on the seal has expired or has been revoked.

(Formerly: Acts 1935, c. 148, s. 16; Acts 1961, c. 277, s. 6.) As amended by P.L. 23-1991, SEC. 24; P.L. 215-1993, SEC. 15.

Expiration and renewal of certificate

Sec. 17. (a) Unless a certificate is renewed, a certificate issued under this chapter expires on a date specified by the licensing agency under IC 25-1-6-4 and expires biennially after the initial expiration date. An applicant for renewal shall submit an application in the manner prescribed by the board and pay the renewal fee established by the board under IC 25-1-8-2 on or before the renewal date specified by the licensing agency.

(b) If the holder of a certificate does not renew the certificate by the date specified by the licensing agency, the certificate expires and becomes invalid without the board taking any action.

(c) The failure on the part of a registrant to renew a certificate does not deprive the registrant of the right of renewal.

(d) If a certificate has been expired for not more than three (3) years, the certificate may be reinstated by the board if the holder of the certificate meets the requirements for reinstatement under IC 25-1-8-6(c).

(e) If a certificate has been expired for more than three (3) years, the certificate may be reinstated by the board if the holder of the certificate meets the requirements for reinstatement under IC 25-1-8-6(d).

Continuing education rules

Sec. 17.5. (a) The board may adopt rules requiring a professional engineer to obtain continuing education for renewal of a certificate under section 17 of this chapter.

(b) If the board adopts rules under this section, the rules must do the following:

(1) Establish an inactive certificate of registration that:

(A) does not require the holder of an inactive certificate to obtain continuing education; and

(B) prohibits the holder of an inactive certificate from practicing engineering.

(2) Establish requirements for reactivation of an inactive certificate.

As added by P.L. 215-1993, SEC. 17.

IC 25-31-1-18

Corporate practice

Sec. 18. (a) A registration certificate for a professional engineer may be issued only to a natural person.

(b) A business, including a proprietorship, partnership, or corporation, doing business in Indiana may not practice or offer to practice engineering unless that practice is carried on under the responsible direction and supervision of a registered professional engineer who is a full-time employee of the business. All plans, sheets of designs, specifications, reports, studies, or other engineering documents that require certification and are prepared by the personnel of a business must carry the signature and seal of the registered professional engineer who is in responsible charge of the professional engineering work.

(Formerly: Acts 1935, c. 148, s. 18; Acts 1957, c. 320, s. 8; Acts 1961, c. 277, s. 8; Acts 1967, c. 95, s. 1.) As amended by P.L. 23-1991, SEC. 25; P.L. 215-1993, SEC. 18.

Public projects; employment of professional engineer

Sec. 19. (a) A county, city, town, township, school corporation, or other political subdivision of this state may not engage in the construction or maintenance of any public work involving the practice of engineering for which plans, specifications, and estimates have not been prepared, certified, and sealed by, and the construction and maintenance executed under the direct supervision of, a professional engineer. Any contract executed in violation of this section is void.

(b) An official of this state, or of any city, town, county, township, or school corporation, charged with the enforcement of any law, ordinance, or rule relating to the design, construction, or alteration of buildings or structures may not use or accept or approve any plans or specifications that have not been prepared by, or under the supervision of and certified by, a registered professional engineer. This subsection does not apply:

(1) to plans or specifications prepared by, or under the supervision of and certified by, an architect who is registered under IC 25-4-1;

(2) to structures and construction listed in IC 22-15-3-3(a); or

(3) to plans or specifications contained in a registration, license, or permit application, including an application for an initial permit, the renewal of a permit, the modification of a permit, or a variance from a permit submitted to the commissioner of the department of environmental management under IC 13, unless the permit is for the approval of plans or specifications for construction for which a professional engineer's seal is required by operation of either state or federal law, rule, or regulation. This subsection does not require a professional engineer's seal for an application for an air quality construction permit under 326 IAC 2-1-3.

This section shall not be construed as to abridge or otherwise affect the powers of any state board or department to issue rules governing the safety of buildings or structures.

(c) All maps required to show the underground workings of any mine in Indiana must be prepared, certified, and sealed by a professional engineer or land surveyor.

Exempt persons

Sec. 20. (a) An employee or a subordinate of any person who holds a certificate of registration under the provisions of this chapter is exempt from the provisions of this chapter if the practice of the employee or subordinate does not include responsible charge of design or supervision.

(b) This chapter does not require registration for the purpose of practicing engineering by an individual or a business:

(1) on property owned or leased by that individual or business unless the engineering practice involves the public health or safety, or the health or safety of the employees of that individual or business;

(2) for the performance of engineering which relates solely to the design or fabrication of manufactured products; or

(3) that is registered as a landscape architect under IC 25-4-2 and while the individual or business is engaged in the practice of landscape architecture planning the use of land or water.

(Formerly: Acts 1935, c.148, s.20; Acts 1947, c.262, s.9; Acts 1951, c.125, s.1; Acts 1961, c.277, s.10; Acts 1969, c.279, s.7.) As amended by Acts 1982, P.L.154, SEC.103; P.L.23-1991, SEC.27; P.L.1-1993, SEC.198; P.L.215-1993, SEC.20.

License by reciprocity

Sec. 21. The board may, upon application and payment of a fee established by the board in the board's rules, issue a certificate of registration as a professional engineer to an individual who holds a valid certificate of registration as a professional engineer, issued to the applicant by the proper authority of any state or territory or possession of the United States if the requirements for registration of professional engineers that the certificate of registration was issued under do not conflict with the provisions of this chapter. In determining the qualifications of an applicant, the board may accept the verified professional record of the applicant that is certified by the National Council of Examiners for Engineers and Surveyors. However, an applicant meets the experience requirement under section 12 of this chapter if the applicant:

(1) has at least three (3) years of engineering work experience after the applicant graduates from an approved engineering curriculum but before the applicant successfully passes an examination required under section 14 of this chapter; and

(2) has been registered or licensed as a professional engineer in another state for at least ten (10) years.

- (2) presents as the person's own the certificate of registration or the seal of another;
- (3) gives any false or forged evidence of any kind to the board or to any member of the board in obtaining a certificate of registration;

Injunctions

Sec. 29. (a) The attorney general, the prosecuting attorney of any county, the board, or a citizen of any county where a person who is not exempted engages in the practice of engineering without first having obtained a certificate of registration or without first having renewed an expired certificate of registration may, in accordance with the provisions of the laws of this state governing injunctions, file an action in the name of the state of Indiana to enjoin that person from engaging in the practice of engineering until a certificate of registration is secured or renewed.

(b) Any person who has been enjoined and violates an injunction shall be punished for contempt of court. An injunction does not relieve a person engaged in the practice of engineering without a certificate of registration or without first having renewed an expired certificate of registration from a criminal prosecution.

(c) The remedy by injunction is in addition to any remedy provided for herein for the criminal prosecution of the offender. In charging any person in a complaint for violation of the provisions of this chapter by engaging in the practice of engineering without a certificate of registration or without having renewed an expired certificate of registration, it is sufficient to charge that the offender:

- (1) on a certain day in a certain county practiced or offered to practice engineering; and
- (2) was not registered or exempted under this chapter.

(c) The treasurer of state shall invest the money in the fund not currently needed to meet the obligations of the fund in the same manner as other public money may be invested.

(d) Money in the fund at the end of a state fiscal year does not revert to the state general fund. If the total amount in the fund exceeds five hundred thousand dollars (\$500,000) at the end of a state fiscal year after payment of all claims and expenses, the amount that exceeds five hundred thousand dollars (\$500,000) reverts to the state general fund.

Sec. 8. (a) As used in this section, "board" has the meaning set forth in section 6(a) of this chapter.

(b) The licensing agency may delay reinstating a license, certificate, or registration for not more than ninety (90) days after the date the applicant applies for reinstatement of a license, certificate, or registration to permit the board to investigate information received by the licensing agency that the applicant for reinstatement may have committed an act for which the applicant may be disciplined. If the licensing agency delays reinstating a license, certificate, or registration, the licensing agency shall notify the applicant that the applicant is being investigated. Except as provided in subsection (c), the board shall do one (1) of the following before the expiration of the ninety (90) day period:

(2) Reinstatement of the license, certificate, or registration upon satisfaction of all other requirements for reinstatement.

(5) Upon agreement of the applicant and the board and following a personal appearance by the applicant before the board, reinstate the license, certificate, or registration and place the applicant on probation status under IC 25-1-9-9 or IC 25-1-11-12.

(d) If the board makes a request under subsection (b)(4), the office of the attorney general shall conduct an investigation. Upon completion of the investigation, the office of the attorney general may file a petition alleging that the applicant has engaged in activity described in IC 25-1-9-4 or IC 25-1-11-5. If the office of the attorney general files a petition, the board shall set the matter for a public hearing. If, after a public hearing, the board finds that the applicant violated IC 25-1-9-4 or IC 25-1-11-5, the board may impose sanctions under IC 25-1-9-9 or IC 25-1-11-12. The board may delay reinstating a license, certificate, or registration beyond ninety (90) days after the date the applicant files an application for reinstatement of a license, certificate, or registration until a final determination is made by the board.

(e) The license, certificate, or registration of the applicant for license reinstatement remains invalid during the ninety (90) day period unless:

(1) the license, certificate, or registration is reinstated following a personal appearance by the applicant before the board before the end of

the ninety (90) day period;

(d) For a course to qualify as an engineering design course, the course must instruct on the decision making process in which the basic sciences and mathematics and engineering sciences are applied to convert resources optimally to meet a stated objective. Among the fundamental elements of the design process are the establishment of objectives and criteria, synthesis, analysis, construction, testing, and evaluation. The content of an engineering design course must include some of the following features:

(1) Development of student creativity.

(2) Use of open-ended problems.

(3) Development and use of modern design theory and methodology.

Affected: IC 25-31-1-14

Sec. 3. (a) The examination for registration as a professional engineer shall consist of three (3) parts. Part I shall be known as the fundamentals of engineering examination. Part II shall be known as the principles and practice examination. Parts I and II are further described in IC 25-31-1-14(a) through IC 25-31-1-14(c). Part III shall concern professional conduct and Indiana registration law for professional engineers. In order to be granted registration as a professional engineer, the applicant must pass Part I, Part II, and Part III.

(b) Part II of the professional engineer examination shall be by engineering discipline, for example, electrical, mechanical, or civil. The applicant shall be required to choose the discipline in which the applicant desires to be examined.

(c) Part III of the professional engineer examination will be a take home examination to be taken in conjunction with Part II.

(d) The examination for certification as an EI shall be the fundamentals of engineering examination described in subsection (a).

(e) Regularly scheduled examinations will be given twice each year, normally in April and October. Sec. 5. (a) If admission to an examination is granted, those parts of the examination which the applicant will be required to take and pass will be stated on a notice sent to the applicant.

(b) An applicant who has received the notice described in subsection (a) must take either the examination to which admission was granted or one (1) of the next two (2) examinations thereafter. If the applicant fails to sit for at least one (1) of the three (3) examinations, the application for the registration or certification being sought shall be deemed terminated and, if the applicant thereafter desires to seek the registration or certification for which application had been made, a new application must be filed with, and approved by, the board.

(c) This subsection applies only to individuals who apply for registration as a professional engineer without first having been certified as an engineering intern. An individual who passes the fundamentals of engineering examination as a professional engineer applicant must take the principles and practice examination and Part III of the examination no later than the third time it is offered after the applicant passes the fundamentals of engineering examination. If the applicant fails to do so, the applicant's application shall be deemed terminated and, therefore, the applicant shall be required to reapply as a professional engineer applicant and meet the requirements for examination admission before taking the principles and practice examination and Part III of the examination. Affected: IC 23-18-2-2; IC 25-31-1-18

Sec. 1. A limited liability company doing business in Indiana may practice or offer to practice engineering only if that practice is carried on under the responsible direction and supervision of a registered professional engineer who is a full-time employee or member of the company. All plans, sheets of designs, specifications, reports, studies, or other engineering documents that require certification and are prepared by the personnel of a business must carry the signature and seal of the registered professional engineer who is in responsible charge of the professional engineering work. Sec. 2. (a) As used in this rule, "biennium" means a two (2) year licensure period during which continuing education requirements must be met. It:

(1) commences on August 1 of an even-numbered year; and

(2) concludes on July 31 of the next even-numbered year.

(b) Based on IC 25-1-4-0.5 and as used in this rule, "continuing education" means an orderly process of instruction that is:

(1) approved by an approved organization (as defined in IC 25-1-4-0.2) or the board; and

(2) designed to directly enhance a professional engineer's knowledge and skill in providing services relevant to the practice of engineering.

(c) As used in this rule, "hour of continuing education" means at least fifty (50) minutes of instruction or course contact time.

"Hours of continuing education" has the same meaning for the number of hours stated. An alternate term for an hour of continuing education that is used nationally with continuing education for professional engineers is professional development hour or PDH.

(State Board of Registration for Professional Engineers; 864 IAC 1.1-15-2; filed Jul 19, 2010, 11:22 a.m.: 20100818-IR-864090788FRA)

(a) Except for holders of an inactive certificate under section 9 of this rule, during each biennium a professional engineer shall complete thirty (30) hours of continuing education that meets the requirements of this rule and IC 25-1-4 in order to renew his or her professional engineer registration. This continuing education requirement first applies to the biennium of August 1, 2010, through July 31, 2012, and therefore first applies to the July 31, 2012, renewal.

(b) At least one (1) hour of the continuing education required in each biennium under subsection (a) shall be in ethics applicable to the practice of professional engineering.

(c) At least one (1) hour of the continuing education required in each biennium under subsection (a) shall be in Indiana statutes and rules applicable to the practice of professional engineering.

(d) A professional engineer initially licensed in Indiana in the first year of a biennium shall only be required to obtain fifteen (15) hours of continuing education. A professional engineer initially licensed in Indiana in the second year of a biennium shall not be required to obtain any continuing education.

(e) Up to fifteen (15) hours of continuing education may be carried over as follows:

Footnote 1 "Sustainable development" is the challenge of meeting human needs for natural resources, industrial products, energy, food, transportation, shelter, and effective waste management while conserving and protecting environmental quality and the natural resource base essential for future development.

"By order of the United States District Court for the District of Columbia, former Section 11(c) of the NSPE Code of Ethics prohibiting competitive bidding, and all policy statements, opinions, rulings or other guidelines interpreting its scope, have been rescinded as unlawfully interfering with the legal right of engineers, protected under the antitrust laws, to provide price information to prospective clients; accordingly, nothing contained in the NSPE Code of Ethics, policy statements, opinions, rulings or other guidelines prohibits the submission of price quotations or competitive bids for engineering services at any time or in any amount."

Statement by NSPE Executive Committee

In order to correct misunderstandings which have been indicated in some instances since the issuance of the Supreme Court decision and the entry of the Final Judgment, it is noted that in its decision of April 25, 1978, the Supreme Court of the United States declared: "The Sherman Act does not require competitive bidding."

It is further noted that as made clear in the Supreme Court decision:

- a. Engineers and firms may individually refuse to bid for engineering services.
- b. Clients are not required to seek bids for engineering services.
- c. Federal, state, and local laws governing procedures to procure engineering services are not affected, and remain in full force and effect.
- d. State societies and local chapters are free to actively and aggressively seek legislation for professional selection and negotiation procedures by public agencies.
- e. State registration board rules of professional conduct, including rules prohibiting competitive bidding for engineering services, are not affected and remain in full force and effect. State registration boards with authority to adopt rules of professional conduct may adopt rules governing procedures to obtain engineering services.
- f. As noted by the Supreme Court, "nothing in the judgment prevents NSPE and its members from attempting to influence governmental action . . ."

Note: In regard to the question of application of the Code to corporations vis-a-vis real persons, business form or type should not negate nor influence conformance of individuals to the Code. The Code deals with professional services, which services must be performed by real persons. Real persons in turn establish and implement policies within business structures. The Code is clearly written to apply to the Engineer, and it is incumbent on members of NSPE to endeavor to live up to its provisions. This applies to all pertinent sections of the Code.
