COURSE OBJECTIVES

The objective of this educational course is to give an introduction to Personal Protective Equipment, commonly referred to as "PPE". PPE is equipment worn to minimize exposure to hazards that cause serious workplace injuries and illnesses. The proper use of PPE is essential in the workplace to minimize the risk of injury and illness. This course will provide an overview of common types of personal protective equipment (PPE) that are used in industry such as hand, face and eye, foot and leg, torso, hand and arm, hearing and respiratory protection.

COURSE DETAILS

This course is an interactive/video course where the user learns through video explanations as well as interactive slides and modules. If you require a timed & monitored version of this course, you can select that option before you start the course. You can take the course anytime and anywhere, on any device. This course is completely self-paced, so you can start and stop and set your own pace. If you need to take a break during the course, you will be able to pick up at the point where you left off. At the end of the interactive/video course, you will have a completion exam to ensure you learned the material which was presented. Upon scoring a 70% or above on the end exam, you will receive a completion certificate with your name, PE#, and the date on which you completed the exam. We also keep a copy of all certificates indefinitely.
