COURSE OBJECTIVES

The objective of this educational course is to educate the user on how to prevent jobsite and workplace injuries. Workplace injuries are incredibly common, and they can have devastating impacts on both the injured employees and their employers. This is why it's crucial for you to understand how the employee and employer can prevent them. By the end of this course, you will be able to: Identify workplace hazards; Understand the employer & employee responsibilities; Analyze root causes vs contributing causes for workplace injuries; Learn how to prevent hazards in the workplace; and Define various workplace hazards.

COURSE DETAILS

This course is an interactive/video course where the user learns through video explanations as well as interactive slides and modules. If you require a timed & monitored version of this course, you can select that option before you start the course. You can take the course anytime and anywhere, on any device. This course is completely self-paced, so you can start and stop and set your own pace. If you need to take a break during the course, you will be able to pick up at the point where you left off. At the end of the interactive/video course, you will have a completion exam to ensure you learned the material which was presented. Upon scoring a 70% or above on the end exam, you will receive a completion certificate with your name, PE#, and the date on which you completed the exam. We also keep a copy of all certificates indefinitely.
