## FRESH UP

This gentle method without peeling effect refreshes the skin visibly. Blood circulation is stimulated, pores open and the skin is now able to optimally absorb the ingredients of the skin care. The skin complexion appears brighter, fresher and relaxed.

---

R950

---

## ENERGY

The Energy treatment stimulates blood circulation and metabolism of the cells. This leads to a natural improvement of the skin texture without any peeling effect. The skin appears more energetic and age-related skin signs are reduced. GREEN PEEL® Body Energy also offers a way to treat problem areas on almost the entire body.

---

R1350

---

## CLASSIC

During the herbal massage, the upper layers of the epidermis are removed, blood circulation, oxygen supply as well as metabolism are increased and regeneration processes are stimulated. This reduces the usual time for skin renewal from 28 days to 5 days. A new, fresh skin appears after the peeling process. The final Beauty Finish treatment provides the particularly receptive skin with nourishing ingredients.
