

What I Love about JAS

As a kindergartener I came through these doors
Eager and scared for what was in store
But to my surprise there was lots to do and to see
Activities for all ages...Mom, can I please?
She said yes, no problem; what would you like?
I want an activity a day. Does that sound alright?
For now, yes. Let's see what they've got
Robotics, Tennis, Gymnastics or Karate...aye, chop, chop

Those were fun, but can I try a few more?
How about Young Rembrandts or Soccer
I like games with a score.
But wait - they're offering Drama, Etiquette and String
Ok, ok, ok. Let me do my thing!!

As a 5th grader I look back and these activities were all fun.
Making friends and running around - matter of fact, I need a re-run!
But what I love the most about JAS is the **TEACHERS!!**
They are kind and really love us. Those are top notch features.
No teacher ever yells or screams or gets upset.
They treat all of us as their own with lots of love and respect.
Now if we get out of line, they will reel us in.
But it's cool. What kid doesn't need their coat tail pulled every now and then?

I'm really going to miss JAS, but I know the show must go on
Up, onward and above (...sounds like a song)
To the kids coming behind me: cherish every moment of this frolic
There is no JAS in 6th grade; no nothing - nada!
To all my JAS teachers: **THANK YOU!!** You've done me a solid.
And be sure to tell Mr. Mike I mastered my shoe lace saga! 😊

The End
Seth Howard
