Soccer with OT Sports	Mondays	01/22/2024	04/22/2024	2:45 PM 4:00 PM	\$324	K	3	Soccer with Overtime Sports is an active program for boys and girls designed to develop an interest in the game and establish a solid foundation in preparation for recreational or club soccer. We are able to accomplish this by making sure the number one ingredient is present at all times: FUNdamentals! Students will learn various elements of the game such as passing, trapping, dribbling, shooting, and ball control. The sessions are composed of exciting games such as Terminator, Sting Ray, and World Cup. It is our belief that soccer instills cooperation, teamwork, sportsmanship, and self-confidence, all of which are key components that transcend the playing field and impact the development of our children. otsports@comcast.net

Drawing Elements with Spunky Arts	Mondays	01/22/2024	04/22/2024	2:45 PM 4:00 PM	\$384	K	2	New lessons each semester! Drawing basics balancing classic arts education and fun. Basic does not mean boring! Students will build upon their understanding of geometric shapes to create more complex images while learning the use of line, form, space, and perspective to complete drawings that are, ultimately, all their own. This class offers weekly step-by-step single subject drawings designed to scaffold the elements of drawing while improving handwriting and fine motor skills. Parents of students who have taken this class one or more times have reported not only remarkable improvements in handwriting and fine motor skills but also persistence, patience, and confidence in their student. New projects each semester. Lessons do not repeat. Please contact Christie with questions at SpunkyArts@gmail.com
Graphic Novel & Comics Creation with Spunky Arts	Mondays	01/22/2024	04/22/2024	4:10 PM 5:10 PM	\$396	2	5	Drawing! Creative Writing! Character Development! Sequential art and creating comics combines drawing, creative writing, and character development teaching skills beyond basic arts like sequencing, and creative and critical thinking. All while having fun, of course! Using prompts and activities, students will develop their own characters and story lines creating a book of their own comics by semester's end! Facilitated by Comic artists and teachers. Please contact Christie with any questions at SpunkyArts@gmail.com

Tap & Ballet with Studio Go Dance	Tuesdays	01/23/2024	04/23/2024	2:45 PM 4:00 PM	\$384	K	2	Tap Ballet is a combination class split with 30 minutes of Tap and 30 minutes of Ballet. This is a great class for the young dancer who wants to learn the fundamentals of both Tap and Ballet. Classes touch on both warm-up and technique of both disciplines, as well as proper arm, leg, and foot positions. Studio Go's Tap Ballet program is a progressive program that introduces more complex technique and patterns of movement to challenge the elementary student. These classes are perfect for both beginners and the more serious dance student. Our teachers are prepared and evaluate where each student is (level) to make sure that all students are both comfortable and challenged at the same time. All classes taught by Studio Go Dance Instructors. DRESS CODE: Black leotard, pink tights, pink ballet shoes, and black tap shoes. Boys should wear a white top, black bottoms and black ballet and tap shoes. Program questions? email info@studiogodance.com

No previous experience with robotics is necessary. Returning students will be given the freedom to build upon past experiences on new platforms and challenges. Activities focus on honing critical thinking skills, perseverance and teamwork as students learn to program, use sensors and design attachments.For the spring 2024, we will explore the world of Battle Bots and compete in our own TRI ROBOTICS SUMO CUP! Teams of students will compete to out program, out design and out build their peers. There will be a friendly competition between Sarah Smith Elementary, Warren T. Jackson and Springdale Park Elementary at the end of the term. Using the LEGO MINDSTORM EV3 and RC battle bot platforms, students will learn programming and building skills that will translate nicely to the FLL competition we compete in each Fall. For those not necessarily interested in competing in the SUMO challenge, there will be options to build a host of helper bots as well as the robotic arena itself. Hexbug Nanos, Spheros, as well as a couple of new surprises will make guest appearances throughout the season.Program specific questions? The competition itself will be held in the 2024 spring term on April 27. Previous experience with drones is required. In addition to the built-from-scratch drones we work on for team competition, students will be responsible for the upkeep and health of their trainer drone that they will use to practice obstacles, learn battery management and hone their piloting skills. When not flying, we will delve into the world of material science as we encourage experimenting with different materials to achieve the delicate balance between strength and weight. Drone safety is our number-one priority and by the end of the term all students will have completed drone safety and certification with the FAA and AMA (Academy of Model Aeronautics). This includes passing the Recreational UAS Safety Test (TRUST) that allows for the flying of drones over .5 lbs. A youth membership of \$15/year with the AMA is required to participate in the DFG competition and is not included in the registration cost of this program.All supplies are included in the Fee, including the trainer drones.
