

Before You Sell

Most sellers don't realize how much happens behind the scenes.

The goal isn't to simply put your home on the market. It's to create a smooth process with strategy and preparation that creates urgency, secures top dollar and minimizes risk. Success requires doing the right things in the right order.

- Strategic Pricing & Market Positioning
- Effective & Comprehensive Pre-listing Preparation & Presentation Strategy
- Marketing Exposure with Professional Media
- Offer & Terms Evaluation
- Inspection & Appraisal Navigation
- Offer & Closing Coordination

Brokered by eXp Realty

I help you sell your home with confidence - and protect the value you've built along the way.
