Petition to increase Ontario’s investment in public education

WHEREAS Ontario’s students, their families and their communities deserve a world class public education system;
WHEREAS government cuts mean that education funding has fallen by \$1,500 per student since 2018 when adjusted for inflation;
WHEREAS inadequate school board funding is leaving students behind, jeopardizes vital student services and school programs and negatively impacts Ontario’s future economic competitiveness; and
WHEREAS there is a growing crisis in teacher and education worker recruitment and retention; therefore

WE, THE UNDERSIGNED, call upon the _____ to pass a motion to call upon the Government of Ontario to immediately:

- 1) **Increase annual government investments in public education** to ensure Ontario’s schools can provide the best opportunities for education and student growth;
- 2) **Provide immediate and dedicated funding to address the growing backlog of school repairs and maintenance** needed to ensure every school is a safe and healthy environment to learn and work; and
- 3) **End the recruitment and retention crisis** to ensure that every student has the teachers and education workers they need to support their success each and every day.
