Electromechanical automation for swing gates

Swing

Residential and collective use

DE@NET by DEA

Safe and user friendly technologies

LOOK is an electromechanical automation for **swing gates** both in **230V** and **24V**, intended for **residential and collective use.**

LOOK is available in **2 different dimensions** with **320mm** and **520mm** stroke.

The telescopic rod is in **stainless steel** and cannot be equipped with **rod cover** (sold separately) in cases of **higher protection** requirements.

LOOK is:

· **powerful:** suitable also for leafs of big dimensions
· **robust and reliable:** all materials used are of a very high quality
· **silent:** thanks to the internal precision mechanics
· **safe and practical:** in case of power failure, the motor is equipped with a key release

The use of the **DE@NET** technology guarantees **maximum safety** and **compliance to European standards** in the field of impact forces also in the **230V** version, thanks to presence of the **encoder**.

> **aluminium rod cover**

EN 12453
IN COMPLIANCE WITH STANDARDS
EN 12445

in compliance with EN12453 and EN12445 standards in the field of impact forces

3 YEARS WARRANTY

3 years warranty on motors and control boards

Motor case in painted Aluminium

Robust rod in stainless steel.

Internal mechanics in steel with ball bearings

DEAuser

DEAuser is the app dedicated to private user which enables checks on the installation through smartphone (nearby the automation).

Did you forget either the code of the keypad or the key selector?
No problem! Your smartphone becomes the tool to open all your doors!

**More practicality:
your smartphone
opens all doors!**

> Opening without code or key
(Nearby the automation)

NET-NODE

=

The **DEAuser** app is usable thanks to the **NET-NODE** wireless device put either inside the motor or on the control panel (depending on the automation model). This means:

- **NO DEVICE TO BE ADDED OUTSIDE YOUR HOUSE:**
  there is no need to carry out works of masonry at the entrance, no holes and no wiring

- **SAFETY AND PROTECTION AGAINST VANDALISM:**
  unlike of the wired devices, with NET-NODE there is no possibility to be tampered

The **DEAuser** app is available on:

Download on the **App Store**

ANDROID APP ON **Google play**
