FOOD & BEVERAGE EXCELLENCE, THROUGH AUDITS & RATING SYSTEM

RatingLuxury.com is a UAE-based luxury hospitality consultancy and restaurant auditing firm that sets the benchmark for excellence in dining. We provide in-depth evaluations, strategic consultancy, and guest experience enhancement services to help restaurants reach the pinnacle of luxury.

Our signature **Fork Rating** is not for sale—it is earned.

Only restaurants that meet our rigorous standards across seven key pillars are awarded this prestigious recognition, making it a true symbol of excellence.

MISSION AND VISION

Our Mission

Many independent restaurants in the UAE struggle with inconsistent service standards, lack of global recognition, and the absence of a structured framework to measure and improve their luxury dining experience. Without the backing of international chains, these establishments often face challenges in building trust, maintaining quality, and standing out in a competitive market.

RatingLuxury.com exists to solve these problems. We empower restaurants with a professional, unbiased audit system, strategic consultancy, and tailored training programs that elevate every aspect of the guest journey.

Our earned **Fork Rating** provides authentic recognition, helping restaurants build credibility, attract discerning diners, and align with world-class luxury standards.

Our Vision

We envision a UAE dining landscape where luxury is not just a promise—but a proven standard. **RatingLuxury.com** aims to become the definitive authority in luxury restaurant evaluation and consultancy, creating a recognizable brand identity that diners trust and seek out.

By standardizing service excellence through our proprietary rating system and consultancy framework, we help restaurants deliver consistent, elevated experiences. Our goal is to make the **Fork Rating** a symbol of quality and prestige, guiding guests to venues where they know they'll receive exceptional service, ambiance, and culinary artistry.
