

Remote Work Certificate Program

A 4-week online educational program on how to be a successful remote worker.

“One trend that will outlast the COVID-19 pandemic: **remote work.**”¹

37% of U.S. jobs could be done from home full-time.¹

Over 80% of employers say they'll have more lenient work-from-home policies after the pandemic.¹

Many people will continue working remotely. Those who return to the office will need to work in ways that are compatible with their remotely working associates.²
