

To Secretary General Antonio Guterres: Notice of International Protest
RE 162 265 133 US

This Notice of International Protest is lodged with you and the members of the Security Council; Notice to Agents is Notice to Principals, Notice to Principals is Notice to Agents. This is to inform you that a Non-Domestic population present in every State of The United States of America is being harmed by bio-engineered environmental modifications tests in violation of the ENMOD Treaties. This military "testing" is a war simulation that includes the use of foreign live bio-engineered viruses -- a man-made environmental threat that they are distributing and inflicting upon the general population with resulting non-domestic civilian deaths.

In addition to the man-made virus pollution they have also polluted the environment with man-made electromagnetic pollution that has disastrous impact on oxygen supplies needed by all life on this planet. This is not just an issue, therefore, of our discomfort or loss, but involves the deterioration of the entire global supply of oxygen and the ability of this planet to support life of any kind. All of this is self-evidently in violation of the G202-P3 Treaty as well as the ENMOD Treaties and should be of the gravest concern of all people on this planet.

The Perpetrators appear to be doing this for no better reason than to excuse making large non-consensual charges against our credit and assets under the false pretense that the object of this "live exercise" is to protect us by killing us and misdirecting our employees to function at the level of dumb beasts.

The problem thus presented is a global problem caused by run amok commercial corporations and technical research organizations that are privately funded and are deliberately causing these problems. They anticipate receiving great wealth and power either as a direct favor from the Perpetrators or as the result of providing solutions to the problems that they have themselves created.

The High Council has reviewed this situation and determined that intervention is necessary. The 5G grid has to be turned off and powered down well-below the 61.8 GHz resonance field of the oxygen molecule to preserve life on Earth. If necessary, all Reticulae and those colluding with them will be permanently removed without further notice.

As you are attempting to create a world-spanning forum promoting peace and the well-being of the Earth and of mankind, we suggest that you focus on that function and bring all possible resources to bear in your own behalf and the behalf of your member states to preserve your oxygen supplies and promote public consciousness of the dangers of ignorant manipulation of resonance fields, including 5G.

The High Council
Chairman Adoramus
The United States of America
Anna Maria Riezinger, Fiduciary

A handwritten signature in blue ink, appearing to read 'Anna Maria Riezinger', is written over the typed name. Above the signature is a simple blue line drawing of a sun with rays.
