

The skin treatment of choice for a brighter, smoother, youthful complexion.

# *Raffine*

*Automatic Micro needle Therapy System*

Ideal for the non-surgical and non-ablative treatment of various skin conditions such as ageing (wrinkles, stretching), scarring (acne, surgical) and hyperpigmentation.

Raffine is safe, effective and suitable for all skin types. It can be used all over the face and body to stimulate the natural production of new collagen and elastin, thereby erasing wrinkles and smoothing scars in just a few short treatments.

## What can be treated?

- ✓ Acne scars
- ✓ Wrinkles
- ✓ Skin scars
- ✓ Alopecia
- ✓ Skin tone and enlarged pores
- ✓ Hyperpigmentation
- ✓ Collagen deficiency
- ✓ Skin rejuvenation
- ✓ Face lifting
- ✓ Cellulite and stretch marks

Combine with our CLINICCARE mesotherapy cocktails for an enhanced and more targeted treatment. Available in **Glow** (for hyperpigmentation), **Tight** (for lifting and anti-ageing) and **Refresh** (for skin rejuvenation and hydration).

FEATURES	BENEFITS
Automatic	Very easy and safe to use, as the needle tips are hidden inside the guide.
Safe	Medical CE approved and single use disposable needle cartridge.
Less pain	The needle tips are inserted into skin perpendicularly and so pain is minimised.
Adjustable Needle Length	The needle length can be adjusted (from 0.1mm to 2.0mm) depending on the areas or the purpose of treatment.
Efficient and effective	It is more efficient and effective at treating narrow areas such as the nose, around the eyes, or mouth, as the hand-piece device allows you to treat areas at whichever angle you require.

The Raffine offers a far more advanced treatment than MTS (Roller Type needling). Clinical studies<sup>4</sup> have shown AutoMTS (Automatic Micro-Needle Therapy System) to be more effective than ablative treatments like laser resurfacing, dermabrasion and chemical peels.

Raffine is also just as effective as non-ablative treatments like IPL, CO2 Laser, and Fraxel in stimulating collagen and elastin production to thicken the skin thereby erasing wrinkles and smoothing scars.
