# SURVEILLANCE & SECURITY SOLUTIONS

Advanced Technology. Complete Protection.  
Total Peace of Mind.

ADVANCED TECHNOLOGY

REAL-TIME MONITORING

SMART ANALYTICS & ALERTS

RELIABLE & SCALABLE

## VIDEO SURVEILLANCE

A comprehensive video monitoring, surveillance and analytics solution. We offer complete range of surveillance cameras, including IP based network, PTZ, thermal cameras & 4K Wi-Fi trail cameras with complete back-end integration with Command & Control center. Please contact our sales team for further details.

## DRONE CAMERAS

**Monitor Large Areas With A Single Camera.**

Our latest drone solutions feature high-resolution cameras, often with 1/2.3-inch CMOS sensors, and options like 12MP or 4K video recording. Flight time & distance can vary from surveillance to load carrying drones offering from 01 hour to 03 hours flight time and covering a distance of up to 200 KM.

## THERMAL CAMERAS

**Perimeter Protection in All Weather Conditions.**

Thermal cameras can "see" objects and scenery in virtually any weather and under any lighting conditions. It can realize high-precision VCA detection and realtime alarms. It is applied to frontier defense scenes such as airports, railways, farms, large parking lots, etc. The pre-alarm system helps you discover unexpected events immediately and protects your property.

## BODY & TRAIL CAMERAS

**Monitor and Record secretly to discover the unknown.**

Trail camera or game camera, is a camera placed in areas where the photographer generally cannot be at the camera to snap the shutter. Trail cameras are designed to exist in a state of almost complete electronic sleep with a motion-sensor. Body Cameras can be used by Law enforcement agencies, Police and security companies to record the any events. We offer complete range of Body & Trail Cameras including 4K and Wi-Fi Models.
