Polyurethane and Silicone Peripherally Inserted Central Catheters

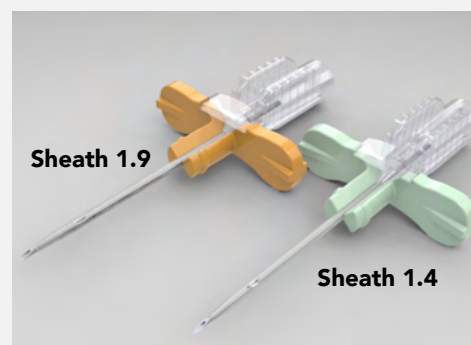

A complete line of PICC products designed for neonatal patients. Developed to support clinicians in neonatal vascular access, with features intended to assist placement, monitoring, and catheter management.

PICC Catheters

- Designed especially for neonatal patients
- Polyurethane and silicone catheter with integrated extension set
- Soft stabilization platform for enhanced securement
- Indelible markings every centimeter
- Fully radiopaque
- Proximal hubs made of inert Polypropylene for chemical resistance and mechanical stability
- Latex and DEHP free

Introducer Sheath

- Notched needle with minimal lie distance for immediate visualization of flashback
- Low profile, compact introducer for increased suitability for small vein access

Please contact your authorized representative for information regarding our PICC Education Course

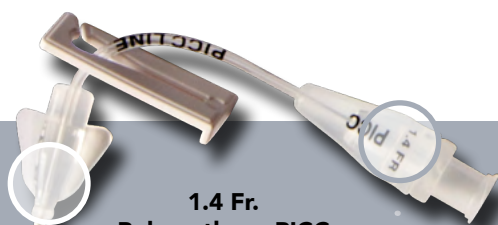

POLYURETHANE PICC KITS

P1PIC1.4-S	Polyurethane PICC Complete Kit – single lumen catheter & introducer)	1.4 Fr.	5/case
P1PIC1.9-S	Polyurethane PICC Complete Kit – single lumen catheter & introducer)	1.9 Fr.	5/case
P2PIC1.9-S	Polyurethane PICC Complete Kit – dual lumen catheter & introducer)	1.9 Fr.	5/case
P1PIC1.4-STY	Polyurethane PICC Single-Lumen, w/stylet	1.4 Fr.	5/case
P1PIC1.9-STY	Polyurethane PICC Single-Lumen, w/stylet	1.9 Fr.	5/case
P2PIC1.9-STY	Polyurethane PICC Double-Lumen, w/stylet	1.9 Fr.	5/case

POLYURETHANE PICC CATHETERS ONLY

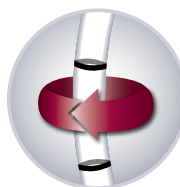

P1PIC1.4-C	Polyurethane PICC Single-Lumen Catheter Only (30cm)	1.4 Fr.	5/case
P1PIC1.9-C	Polyurethane PICC Single-Lumen Catheter Only (30cm)	1.9 Fr.	5/case
P2PIC1.9-C	Polyurethane PICC Dual-Lumen Catheter Only (30cm)	1.9 Fr.	5/case

**1.4 Fr.
Polyurethane PICC**
(with a flow rate
up to 90ml/hr)

360° Markings

around the catheter body provide easier visualization for accurate placement depth and tracking

Easy Identification Hub

is clearly marked with "PICC" and the French size to readily identify the catheter type and size

Soft Stabilization Platform

for enhanced securement and patient comfort

Indelible Markings Every Centimeter

allow the clinician to safely facilitate line placement

**1.9 Fr.
Silicone PICC**

PEEL-AWAY INTRODUCER SHEATHS

SHEATH1.4	Peel-away Sheath Introducer Only	1.4 Fr.	5/case
SHEATH1.9	Peel-away Sheath Introducer Only	1.9 Fr.	5/case

SILICONE PICC CATHETERS AND KITS

S1PIC1.9-S	Silicone PICC Complete Kit – single lumen catheter & introducer	1.9 Fr.	5/case
S1PIC1.9-C	Silicone PICC Single-Lumen Catheter Only (30cm)	1.9 Fr.	5/case
S1PIC1.9-L	Silicone PICC Single-Lumen Catheter Only – Long (40cm)	1.9 Fr.	5/case

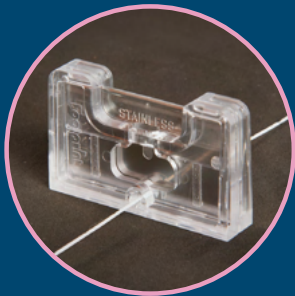

CONVENIENCE KITS / ACCESSORIES

DC-PIC	PICC Dressing Change Kit	10/case
NPT-PIC-NC	PICC Insertion Tray (without catheter & introducer)	5/case
ST-S	Silicone Tourniquet	50/case
TRIMMER	PICC Catheter Trimming Device	10/case
MAXDRAPE	Fenestrade Drape with Clear Window	15/case

More unique advantages designed to improve patient outcomes

At Footprint Medical, our goal is to provide clinicians with the neonatal-specific tools to make challenging procedures more safe and effective. Our PICCs are no exception. Every PICC KIT comes with unique features and components to maximize efficiency and minimize waste.

Packaged in our complete kits, our PICCs offers the following and more:

Trimming Device

Trimming device with magnified viewing window designed to support catheter length adjustment.

Maximum Barrier Drape

Drape with clear window designed to support visualization of the insertion site and use within standard sterile technique.

Safety Products

Sharps protection designed to lock onto and secure contaminated needles.

Adjustable Stylet

Optional Stylet available for ease of insertion.

A complete line of Kits and Accessories are available
