Urgent: Coronavirus (COVID-19) Statement

March 11, 2020

The situation with regards to the coronavirus disease 2019 (COVID-19) outbreak is evolving rapidly. Since our inception, we have proudly made our products in only one manufacturing facility, located in San Antonio, Texas. We are an ISO 13485:2016 certified company and adhere to Current Good Manufacturing Practices (CGMP) to ensure the highest levels of product safety and quality.

At Footprint Medical, we source the vast majority of our raw materials from within the continental United States. We continue to monitor the current situation and work closely with our approved suppliers to ensure there are no impacts to delivering our high-quality products to the marketplace on time.

For additional information about COVID-19, please read the latest report from the Centers for Disease Control at www.cdc.gov, or your local health department website.

Best regards,

Robert Davis
President
Footprint Medical, Inc.
