

Dear 4th and 5th Grade Families,

Welcome to 4th and 5th Grade Math and Science. My name is Olivia Garrity (Ms. G.) and I am excited to be teaching your child this year. I originally am from Colorado, but moved to the New England area after receiving my Bachelor's Degree in Foreign Languages from Bennington College. I speak, read, and write Mandarin Chinese, French, and English of course. Currently, I am in graduate school at Southern New Hampshire University to get a degree in Curriculum Design for Education grades K-12. I have been teaching for the past 4 years having started my journey teaching English in Nepal. Last year, I was the first grade teacher for Gate City and am excited to return to upper elementary. Some fun things about me are my love of cats (Mission and Toothless), playing the flute in community bands, exploring Dungeons and Dragons, and I'm a complete nerd. Ask me about Star Wars, Lord of the Rings, Harry Potter, etc. and I can talk your ear off. Get ready for an exciting year in the arts, I look forward to meeting everyone!

Sincerely,
Olivia Garrity
A.k.a Ms. G.

Toothless Mission
