MISSION

Connecting lives through performance & outreach to cultivate an artistically enriched community.

HER-STORY

Junction Dance Co was founded in 2017 in Salt Lake City, Utah by Maryland native Megan Adelsberger.

Megan's dream was to create a Nonprofit
Organization unlike anything she had ever seen
before! Her vision involved bridging gaps between
age, race, religion, sexual orientation, identity,
street and concert styles of dance.

SYMBOLISM

The name "Junction" was inspired by its literal definition of different roads meeting in one place.

Within the organization, this represents the various walks of life and individualized talents coming together as one to create pure magic in the classroom, on stage and within our community.

Our logo made up of the intertwined circle and triangle represents connection through diversity.

Juntion is a sacred space without judgment, boundaries, or separation uplifting a perspective of love, unity, and celebration!
