

THE RISE INITIATIVE

A SOCIAL ENTERPRISE TO EMPOWER YOUTH.

The RISE Initiative is dedicated to raising awareness and reducing the stigma vulnerable populations face regarding sexual exploitation, homelessness, and poverty.

RISE supports establishing safe spaces where youth can develop the necessary skills to be successful. Through a series of life-skills based workshops to foster resilience, self-efficacy, leadership, personal accountability, and confidence. With the understanding that no child grows up wanted to join a gang or enter into exploitative relationships but does this due to many factors, one these being an overall lack of self-worth and self-love. RISE aims to not only develop resilient and successful youth but to create the next generation of leaders who will be champions in their families and their communities.
