

Notice of Plant design registration

This registration is given in accordance with Occupational Health and Safety Act 2004, Occupational Health and Safety Regulations 2017, Equipment (Public Safety) Act 1994 and Equipment (Public Safety) Regulations 2017.

Registration holder

Ficont Industry (Beijing) Co., Ltd.

Registration number

WSV-0151442821

Date of registration

26/09/2024

Plant type

Hoist with platform movement in excess of 2.4 metres and designed to lift people

Personnel and materials hoist

Design description and extent

Model No –Blade maintenance platform SOFIT-22

Representational drawing(s)

1. Assembly drawing SF000003, G; 2. Electrical drawing DLSF003001, C, Schematic Drawing SF000013, A

Technical information

Max rated capacity (in kg): 280

Max working height (max platform height from ground in metres): 180

Technical information (continued)

Max free standing height (highest point of the hoist, fully extended in metres): 1.108

Power source: AC 400V/7.4A/50Hz

Manufacturer

Ficont Industry (Beijing) Co., Ltd

Published technical standards or engineering principles (as listed by designer and confirmed by design verifier)

EN ISO 12100 - 2010 - Safety of Machinery - General principles for design - Risk assessment and risk reduction

Additional Information

EN 1808 - (2015) -Safety requirements for suspended access equipment - Design calculations, stability criteria, construction - Examinations and tests

EN 60204-1 (2018) - Safety of Machinery - Electrical equipment of Machines Part 1 - General requirements;

ASME A120.1 - (2021) Safety Requirements for Powered Platforms and Travelling Ladders and Gantries for Building Maintenance.

UL1322 - (2010/R: 2023) Standard for Safety Fabricated Scaffold Planks and Stages

Important information

This notice of registration is given in accordance with Occupational Health and Safety Act 2004, Occupational Health and Safety Regulations 2017, Equipment (Public Safety) Act 1994 and Equipment (Public Safety) Regulations 2017.

This notice does not imply approval, acceptance or endorsement of the design by WorkSafe.

This notice applies only to the design registered according to the regulations. WorkSafe has not verified that the designer has complied with the design obligations prescribed by the regulations or the technical standards or engineering principles.

The plant owner requires a copy of this notice. A copy of this notice should be provided to the manufacturer so it can be provided to the supplier and the plant owner with the plant or equipment.

The designer must keep and maintain, in a suitable state for examination, all records required under the regulations, for seven years as set out in the regulations.

WorkSafe reserves the right to audit the registered design at any time to assess compliance with the above acts and regulations. If an audit is undertaken, WorkSafe may ask the person seeking registration or the plant owner or both to supply detailed information relating to the design of the plant.

Design systems of work and documentation may also be audited. If an audit identifies non-compliance with the acts and regulations, all plant built to that design may require modifications and may be prohibited from use.

This notice is automatically invalidated if the design is altered to an extent that requires new measures to control risk. A person must not use, or cause or allow plant manufactured to the altered design to be used at a workplace unless WorkSafe has confirmed registration of the alteration.

You should quote the registration number in all correspondence to WorkSafe regarding this design. Enquiries should be addressed to the WorkSafe's Licensing Branch, 1300 852 562, or email licensing@worksafe.vic.gov.au.

This notice will also be considered a notice of Prescribed Equipment Design under the Equipment (Public Safety) Regulations 2017.
