Net Weight Appears on Invoice

Density: 1.25 kg/L at 20°C.

The viscosity of this product will vary inversely with temperature.

Directions For Use

1. Feed free-choice to beef cattle and dairy heifers using a lick wheel feeder.
2. The following precautions must be observed:
 - a. Provide unlimited drinking water.
 - b. This product is a supplement. Adequate roughage, both in quantity and quality, must be available at all times.
 - c. Grain should be fed as necessary.
 - d. Animals must have consumed other feed prior to being given **MOL-MIX®** Classic Liquid Feed Supplement for the first time. Do not provide hungry animals free access to **MOL-MIX®** Classic Liquid Feed Supplement.
 - e. If animals are not fed **MOL-MIX®** Classic Liquid Feed Supplement for 48 hours, observe animals closely for three days to prevent over-consumption.
 - f. Provide a free-choice mineral supplement containing adequate levels of calcium, phosphorus, salt, and trace minerals.
 - g. Lick tanks must be intact so that animals can consume the correct amount of product from the lick wheel. Loose or damaged tank lids, open lick wheel holes, and leaks must be repaired before animals are allowed access to lick tanks.
 - h. Do not feed more than 0.66 kilograms per head per day.
3. This product must be agitated while being dispensed or fed.
