

HORNBY
ISLAND

Hornby Island: Journey with Care

Enjoy the beauty of our island while helping preserve our unique ecosystem

CONSERVE WATER

Wells supply all the water on Hornby Island. Help conserve water by shortening shower times, fixing any leaks, and refilling bottles before you arrive.

NO NEED TO WANDER!

Stay on marked trails, avoid trampling the underbrush and keep your distance from wildlife, especially during baby deer season.

LEAVE NO TRACE

Help keep Hornby clean and beautiful for everyone. Pack out what you pack in and make use of the disposal bins provided.

SLOW DOWN FOR ISLAND TIME

Spring and fall are the best times to visit—no crowds and shorter ferry waits. Observe speed limits and share the road with cyclists and wildlife.

RESPECT FIRE SAFETY

With cooler weather, beach fires are back! Please use the fire rings, keep water close at hand, and be sure to fully extinguish fires before you leave.

PLAN YOUR STAY

Book your accommodation in advance to enjoy the peace of shoulder season. Check ferry schedules and business hours before you travel.

Thank you for being a responsible visitor
