

Shila Wattamwar

CEO

Profile

Proven leader in sustainability and strategy.

Most recently while Head of Organizational Integration at Morningstar Inc., I created strategic alignment across business lines to optimize organizational initiatives to drive for scale & adoption, leading to organizational cohesiveness.

I sat on the Executive & Leadership team at Sustainalytics for 8 years, helping lead significant company growth (by revenues, clients, staff & products). I was a key member of the team that ultimately led the company through acquisition and integration into Morningstar.

Along with being an impact investor and advisor, I sit on the board of Chefs For Impact, a non-profit organization focused on food sustainability, and I founded SustainableMe!, a platform that brings sustainability education to people in the context of their everyday lives.

I am committed to working with companies in the impact space by helping them grow their solution and amplifying their impact.

Radiant Global Advisory

Independent consultant helping companies implement foundational strategies to help drive decision making. Advisory functions include market sizing & due diligence, opportunity identification & prioritization, narratives & message maps, commercialization & GTM processes, setting up KPI monitoring, product to market feedback loops and sustainability reporting.
