CAT'S CRADLE

Since 2003,
I've design and printed over
1,000 silkscreened gigposters
for bands, clubs, organizations
and events.
From a few handbills
to hundreds of 18"x24" tour posters,
each has been printed by hand
in my home studio.

Since 2004,
I've created thousands of illustrations
for businesses, publications
and private commissions.

Serving as graphic designer,
I've created illustrations for
marketing campaigns,
labels and covers,
merchandise, festivals
and national conventions.

ALBUM DESIGN

E STAVE
VERS

Since the late 1990s,
I've created album artwork for
numerous bands and labels.

Depending on what the project calls for,
I've also done full album layout,
from liner notes to labels,
and have screenprinted several covers
for limited edition releases.

PROTONS, ELECTRONS AND NEUTRONS MAKE THE ATOM.

PROTONS AND ELECTRONS

SWO27

In 2018
I began creating comics and graphic novels. Fiction and nonfiction stories, with a lean toward exploring some universal themes, such as love and loss.
In that time, I've created over 30 titles, including close to a dozen graphic novels.
