# GRAPHIC NOVELS + COMICS

In 2018, I began creating sequential work. Fiction and nonfiction stories, that lean toward exploring some universal themes, such as love and loss. In that time, I've created over 50 titles, including over a dozen graphic novels.

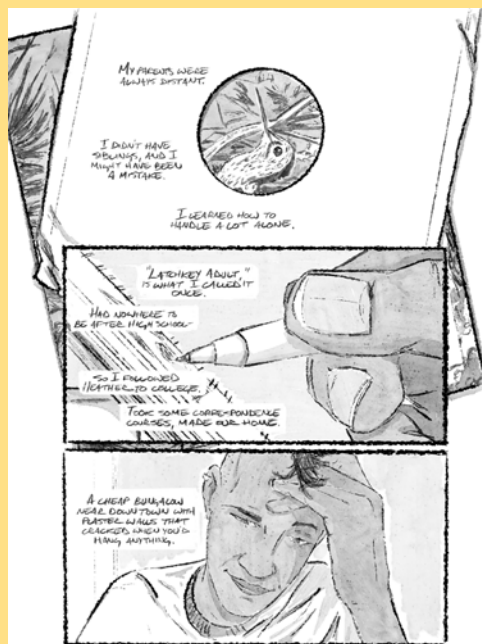

Since 2004, I've created thousands of illustrations for businesses, publications and private commissions. Serving as graphic designer, I've created illustrations for marketing campaigns, labels and covers, merchandise, festivals and national conventions.

# SCREENPRINTED POSTERS

Since 2003, I've designed and printed over 1,000 silkscreened gig posters for bands, clubs, organizations and events. From a few handbills to hundreds of 18"x24" tour posters, each has been printed by hand in my home studio.
