***What is the Channeler's Symposium?***

*Have you ever thought about being a Channel  
or learning how to connect with your Guides?*

If so, then this is the workshop for you! Cé Änn has been Channeling professionally for over 40 years, and has put together proven exercises and guided meditations to help you create a connection of your own. He will assist you in taking the proper steps to Being the Channel you came here to be, guide you in creating a Sacred Space, letting go of fears, and assist you with "sitting in the seat" to allow the energies to flow through. He will also assist you with removing any energy blocks that you may have to help you become a clear and open Channel.

Come let go of what you think Channeling is, and experience the Channel you are every moment in a supportive environment. If you have ever wanted to Channel and have a personal connection with All That Is, then here's your opportunity.... Let's Re-Discover Your Inner-Mystic!
