

# SWISS GREEN TECHNOLOGY

CONNECTING THE WORLD

# INTRODUCTION

---

Founded in 2015 with a clear vision to deliver the perfect customer experience, SGTECH has grown into a trusted and global supplier of new, refurbished and end-of-life hardware for enterprise IT maintenance and optimization.

For almost a decade, SGTECH has been helping companies worldwide to meet their demands and expectations for a fast, scalable and cost-effective IT infrastructure. Today, we serve customers in more than 20 countries and offer a wide range of servers, storage and network equipment from leading manufacturers such as IBM, Lenovo, Dell, EMC, HP, NetApp, Hitachi, Cisco, Supermicro and more.

With our broad expertise ranging from end-of-life spare parts, Networking products through international logistic, we have the capabilities required to strengthen our customers' business, and guide them through the complicated, fast-changing and dynamic technology landscape.

Throughout our history, we have combined our in-depth knowledge, expertise and passion with a global network of trusted resources to provide flexible, cost-effective and value-added solutions, enabling businesses to maintain and improve IT performance and realize a greater return on their investment. We have come a long way since, but our ambition has always been — and still is — to help companies around the world achieve their goals through IT. Your success is our success.
