

The Housing Commission of Anne Arundel County

May 19, 2017

Anne Arundel County Food Bank
P.O. Box 650
Crownsville, Maryland, 21032

Dear Anne Arundel County Food Bank,

I'm writing to you to express our gratitude for the services your agency provides our communities. The Anne Arundel County Food Bank continues to provide valuable assistance with furniture, household items, and medical equipment, which are instrumental in assisting us with our mission in improving the lives of those residing in Anne Arundel County.

As an agency, we provide quality housing choices and affordable communities to nearly 3,000 individuals. We serve families, older adults, and persons with disabilities. Our goals are not only to provide affordable housing but to improve the quality of life and increase self-sufficiency of the individuals we serve. Anne Arundel County Food Bank has assisted us in providing those needs. Many of our low-income residents and families are unable to afford beds, living area furniture, small appliances, dishes, and other household necessities. The Anne Arundel County Food Bank is always willing to fill those requests for items our clients need to make their housing a home.

Over the last several years, more and more of our clients are moving into their homes without the basic household necessities. Our staff is writing many more referrals than in years past. The demand for items has increased while there are very few agencies able to assist with providing these needs. As the Choices Manager, I appreciate having an agency available such as Anne Arundel County Food Bank, to send referrals to and having those referrals filled. Your staff and volunteers are always very kind and empathetic to the needs of those we serve.

In closing, the Housing Commission of Anne Arundel looks forward to continuing our partnership in serving those in need with Anne Arundel County Food Bank.

Sincerely,

Stephanie Hnida
Choices Manager
