Re: Relocation Strategies

Letter of Recommendation

To Whom It May Concern:

I am writing this letter on behalf of Julie Wilson, Owner, Relocation Strategies, as a strong recommendation that her services are well worth the investment if you are planning a move, organizing new space or removing items no longer needed as part of the relocation process.

She and her team are very attentive to the needs of the customer and supportive throughout the process – start to finish. During our recent relocation experience, they met our needs, listened to our concerns, and communicated in a timely manner. Should we need this type of service in the future, we would reach back out to Julie and her team for assistance.

Sincerely,

Nicole Hughes
Director of Program Operations
