

# ONEZERO8 RECLAIM SOCIAL RESPONSIBILITY STATEMENT

---

onezero8, sustainability and circular principles are at the heart of everything we do.

Recognising the significant environmental impact of the fashion industry, our mission is to redefine the lifecycle of post-consumer fashion waste through innovative and sustainable practices.

## Our Approach:

- **Waste Reduction & Upcycling:** We transform unclaimed dry-cleaning garments into fashionable pieces, preventing landfill waste and promoting a circular fashion economy.
- **Community Engagement:** By collaborating with local dry cleaners, we collect, sort, and repurpose discarded textiles, ensuring the benefits of our operations are shared locally.
- **Environmental Impact:**\* We reduce the fashion industry's carbon footprint by utilising local resources and minimising transportation, thereby lowering water usage and emissions.
- **Social Benefits:** Our model supports local businesses, creates jobs, and fosters community-centered economic growth.

## Ethical Standards:

- **Transparency:** We maintain honest communication about our sourcing, waste management, and overall processes.
- **Inclusivity:** We ensure our products are accessible to a diverse range of consumers and our employment practices are fair and equitable.
- **Innovation:** We invest in R&D to continually find new ways to reduce waste and extend the lifecycle of garments, inspiring industry-wide sustainable practices.

## Future Commitments:

onezero8 is committed to expanding our impact by partnering with more fashion brands and aggregators. We aim to transform local communities and influence global practices, making sustainable fashion the norm.

Through dedication, creativity, and collaboration, Onezero8 pledges to drive positive change, proving that fashion can be both stylish and sustainable. Our journey focuses on making thoughtful decisions today for a healthier, more equitable world tomorrow.
