

WELCOME TO BAVARIAN NORDIC

Bavarian Nordic is a global vaccines company on a mission to help improve and protect lives through innovative vaccines. With 30 years of excellence in vaccine development and manufacturing, our purpose is driven by the people we serve and helping prepare them to take on their every day and their next adventure.

As a trusted vaccine provider, we are committed to supporting you in helping protect your patients against some of the world's most urgent infectious disease challenges.

ABOUT BAVARIAN NORDIC

AN EVOLVING VACCINES PORTFOLIO THAT ADDRESSES GLOBAL HEALTH RISKS AND UNMET NEEDS

As The World Moves Faster, So Should We

Climate change, urbanization, and international travel contribute to the risk of infectious diseases globally¹. At Bavarian Nordic, we are driven to find vaccine solutions to combat the threat of infectious diseases.

Committed to Saving and Improving Lives

Providing disease awareness and education

Expanding production capabilities to ensure reliable manufacturing and supply of vaccines

Applying our innovative spirit to continue leadership in infectious diseases and travel health

Being a trusted partner for your vaccine needs

Building on a Legacy of Vaccine Achievements

1994
Founded in Denmark

2007
First smallpox supply contract with US Government

2014
Entered collaboration with Janssen for development and supply of Ebola vaccine

2019
Approval in the United States for Smallpox and Monkeypox Vaccine, Live, Non-replicating suspension for subcutaneous injection

2020
US Commercial team established; acquisition of Rabies Vaccine

2023
Acquisition of Typhoid Vaccine Live Oral Ty21a, Cholera Vaccine Live Oral, and a Phase 3 vaccine candidate for the prevention of chikungunya virus from Emergent BioSolutions

Whilst proud of our achievements in vaccine development over the past 30 years, we are focused on the future. Right now, we are working on bringing patients around the globe an even greater degree of protection from infectious diseases.

An Evolving Vaccines Portfolio That Addresses Global Health Risks and Unmet Needs

RABIES^{2,3}

Found on all continents, except Antarctica Causes ~59,000 deaths globally each year and is nearly 100% fatal once clinical symptoms appear

TYPHOID⁵

~11–21 million cases of typhoid fever occur worldwide each year, with ~85% of cases in the US occurring among international travelers

~135,000–230,000 deaths are attributed to typhoid fever worldwide each year

MPOX⁴

>90,000 cases have been reported globally since the start of the 2022-2023 outbreak >150 deaths have been reported globally since the start of the 2022-2023 outbreak

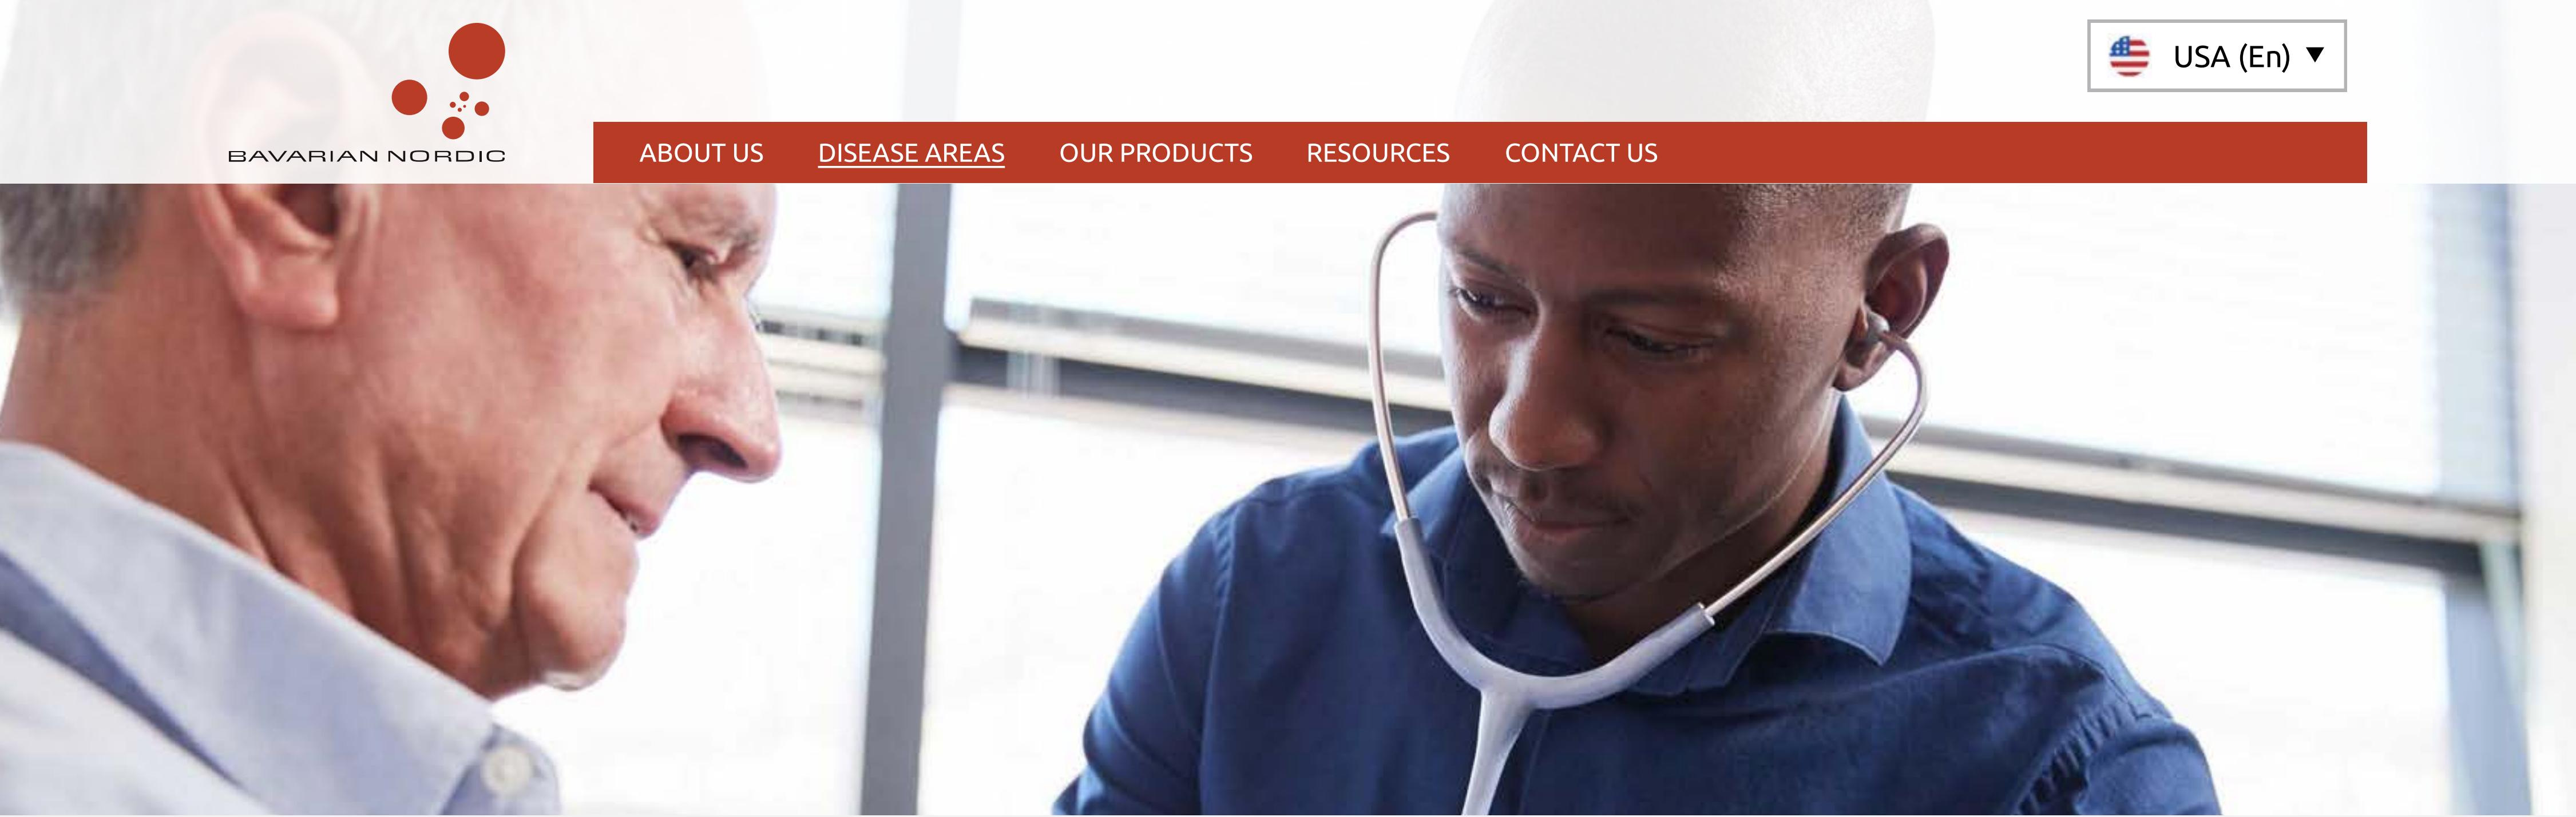

CHOLERA⁶

~1.3–4.0 million cases of cholera occur worldwide each year

Up to 143,000 deaths are attributed to cholera worldwide each year

DISEASE AREAS

LEARN MORE ABOUT THE DISEASES WE HELP PREVENT

Each year vaccines are responsible for the prevention of millions of deaths and for the protection of the health of millions more.¹ At Bavarian Nordic, we are focused on the prevention and treatment of rabies, cholera, typhoid, and mpox. Our commitment to safeguarding people against infectious diseases continues to inspire collaborations and innovation to drive the discovery of vaccines to help meet unmet medical needs.
