

How old do I need to be?

You must be 18 years of age or older with valid state or federal issued I.D.(Driver's License, Passport, Etc.) No other forms of I.D. or parental consent can be accepted in the state of Illinois.

Can I bring my own design?

Yes, actually that is the best way to get exactly what you want. It is best to bring it printed out at the size you would like to have it done, but we can generally print and size it for you if need be.

Do you have designs to choose from?

I do have pre-drawn flash designs available, or you can bring your own reference materials.

Do you offer finger tattoos?

We do HOWEVER, based on our experience finger tattoos do not heal well. We cannot guarantee that you will get the desired result with tattoos on the fingers. The ink tends to fade and drop out. The ink can drop out after only 1 week post tattoo. Also note that everyone is different.

The cost of a touch up for finger, hand and ankle is \$50.

How long do tattoos take?

Tattooing is not a quick process, nor should it be rushed as you will be living with the results permanently. Simple designs the size of a quarter take 20-30 minutes. Multiple small designs take 1-2 hours. An averagely complex piece of work about the size of the back of your hand, usually takes about two hours to complete. With that said, every artist works differently, so please be as honest and open about your design from the start of the consultation.
