Subject: S bill 100

We are contacting you in opposition to Senate Bill 100. It appears that this bill goes to an extreme when it comes to protecting the American flag and eliminating any other type of display of flags on government property. We are especially concerned about the ability in the bill for private citizens to take vigilante actions if they perceive a destruction or desecration of the American flag. Enforcement of our laws should be left to law enforcement and not to private individuals.
