

Preschool Programs

Kindergarten (5-6 Years) - Stimulating Stage

At this stage child brain is approaching towards 90% development, and for further nurturing we stimulate intellectual curiosity to help them understand the world in which they live. Foster Interest through giving opportunity to explore, investigate and experiment.

Nursery (4-5 Years)- Encouraging Stage

Fueled kid, more imaginative and with fine tuned emotions is ready for the environment where they learn more by self doing activities, and we encourage them toward independence by driving toward self expression.

Playgroup (2-3 Years) - Developing Stage

Children start to explore the world around and start gaining sense of self. We help them to develop the keys skill required at this stage to make them more independent.
