A MESSAGE FROM THE OWNERS

At Total Access Electric Motor, our goal is simple: Treat our customers as true partners and take better care of them than anyone else.

We know that in your world, production rarely takes a day off—whether it's a weekend or a holiday. Downtime is Expensive, and the pressure to Maximize Production under Tight Deadlines is very real. That's why you need reliable partners you can reach anytime and trust completely.

This is why our team's motto is "WE WORK WHEN YOU WORK." We are committed to being professional, responsive, knowledgeable, and dependable on every phone call, every visit, every order, and every interaction with our partners. We believe in building long-term relationships by genuinely caring about your success. Please feel free to call me directly with any comments, questions, or concerns. Just like every member of our team, you can reach us directly any day, at any time.

— Jason Tibbitts & Michael Riva, Owners
