“ Understanding the importance of proper use of professional products for your hair type and its structure is the key to any beautiful hairstyle. There is a reason why, after visiting the salon, your hair looks smooth and shiny, or your dry hair looks moisturised, soft and tamed. This is because your hairdresser, with years of experience and skills, has used all the right shampoos, conditioners, styling creams and finishing sprays for your hair type and its texture to achieve the desired look for hair styling. ”
