

## How AO Scan works

 INNER-Voice analyzes an individual's voice to isolate imbalances in the voice tone, pitch and pattern. These imbalances may manifest as disease and stress.

By measuring those tones that are out of balance and supplying Radionic tones that are needed to balance, Inner Voice helps support physical and emotional equilibrium.

Listen twice a day — morning and evening — with high quality headsets— for best results.

## Vitals and Comprehensive Scan

Every cell and organ in the body has its own distinctive Vibrational Frequency.

Over the past 20 years, more than 120,000 ideal frequencies have been identified and cataloged by German, Russian and American researchers.

When these frequencies are disrupted, whether by injury, diet, or emotional stress, imbalance results. If not addressed, fatigue, depression, illness and even death can occur.

 When an AO Scan is performed, the software compares the received frequency with the cataloged frequency and depicts the difference on a scale of 1-9.

 The number 5 indicates that the two frequencies are in sync with each other, meaning that the item in the body is functioning normally.

👉 The number 9 indicates that the the body is oscillating significantly faster than the normal and indicates stress or inflammation.

👉 The number 1 indicates that the body is oscillating significantly slower than the normal and indicates sluggish or suppressed function.

### 🌿 Optimization Scan

👉 The AO Scan detects which frequencies are out of balance with its database of ideal frequencies and generates Scaler Wave frequencies that are 180 degrees opposite. The end result is that neither wave exists any longer and the body will function more optimally.

This process is often referred to as sympathetic vibration or resonance as demonstrated with 2 tuning forks. When one is tapped, the adjacent one will also vibrate.

Vitals and Comprehensive may be run twice a week or more. It's not necessary or desirable to run the full Comprehensive every week. Instead, select those parts of the body that you need help with or run Intelligent Scan based on inner Voice and or either alone. Note that the effects of optimization may last as long as 72 hours.

### 🌿 SEFI Programs

The SEFI program broadcasts Scalar Waves from one point to another without any physical connection. This has been called Radionics or Zero Point Energy.

This may sound hard to believe, but it is commonly used everyday by almost everyone. If you operate a cell phone, you are participating in this technology.

The SEFI also imprints homeopathic sugar pills, tinctures, structured water, crystals, or even to a person in a distant location.

500 ailments, 50 affirmations, Bach Flower remedies, chakras, miasmas and more are available in SEFI.
