

AO Scan-Your body is a magnificent energetic machine that requires ongoing maintenance and calibration. Energy, frequency, vibration, and resonance are the four keys that unlock active wellbeing. What in the world does **energy** have to do with wellbeing? Every cell of your body produces energy. When energy is too low, you feel sluggish and muddled. When energy is too high, you feel hyper and chaotic. When energy is “just right,” you feel like all your circuits are plugged in and switched on. What are **frequencies**, and why do they matter? Frequencies involve the movement of energy from your cells to the brain and back. Following this communication matrix, over 122,000 Blueprint Frequencies travel at a consistent rate and speed in healthy bodies. What does **vibration** have to do with my body? Vibration is the sound frequencies make that you may or may not be able to hear. Each cell broadcasts a unique vibratory sound signature describing everything that’s going on inside. What is **resonance**? Resonance amplifies cellular vibration through related cells, tissues, organs, and systems. Resonance can amplify good vibrations cell-by-cell to restore balance.

How does the AO Body Scanner work? Solex’s AO Scan Technology reads and interprets energy, frequency, vibration, and resonance signals to know what is happening inside your body. Designed to scan and measure frequencies, then compare them with their established blueprint, the AO Scan can identify variances. Using noise-canceling technology, the AO Scan emits opposing frequencies that disable chaotic dissonance so your body can reset. The result is a movement toward a balanced body and mind. AO Scan Technology comes with five types of scans that you can perform on yourself, your family, or your clients. The results of most scans can be printed or emailed for further review by a physician or health practitioner.

The Quick Scan technology performs morning and evening scans. You can upload the supplement and therapies utilized in your morning and evening routines as part of the scan process. The Quick Scan process uses a sound harmonizing technique that generates a balancing audio frequency. The results provide a frequency recording that balances your current emotional state. The results also offer colors and musical tones to assist in creating the balance you need. Low and high octaves will be frequencies out of range. The Quick Scan also has energetic frequencies for clearing and shielding your state of balance and energy. Clearing allows you to eliminate negative vibrations from your surroundings. Shielding protects you against any negative vibrations or energy.

The Inner-Voice technology uses a sound harmonizing technique that generates a balancing audio frequency derived from the voice spectrum in humans to diminish frequencies that are in excess and supplement frequencies that we lack. The Inner-Voice report will display three notes or octaves that are excessively out of balance (or over-compensated) and the central octave that is being suppressed. The Inner-Voice reports will also generate the balancing octaves that can assist in creating balance in the body. The information will include four audio files (MP3) that correspond to each balancing octave outlined in the report. Listen to these four audio files two to three times a day on your AO Scan device with headphones for maximum benefit.

The Vitals Scan mode of the AO Scan Technology performs a complete scan of over 550 Blueprint Frequencies associated with each bodily function and performs the analysis in under one minute. This specific scan is a concise snapshot of the Blueprint Frequencies related to the

frequencies produced by the body's blood, organs, glands, and systems. The scan generates a 24-page data report. The results display the frequencies that are out of range with any blueprint.

1. Blood report-Covers a range of blood measurements and displays frequency levels in scope and out of range.
2. Chakra report-Displays whether a person's chakra centers are off balance. The report displays each category as frequency levels in and out of range.
3. Gastrointestinal report-Displays the balances or imbalances of the Gastrointestinal system frequencies. It displays frequency levels in range and out of range.
4. Meridian report-Displays the imbalances of the 12 Meridian lines.
5. Nutritional report-Displays normal or deficient measurements of the body's mineral, vitamin, amino acid, and enzyme frequencies.
6. Physical Functionality report-Displays frequency levels in and out of range associated with a person's physical ability, bone, muscle, brain, cardiovascular health, hormone, immunity, and organ health.
7. Toxicities report-Displays positive or negative frequency levels of toxicities, including possible allergies, bacteria, fungus, heavy metals, and artificial toxins.

The Comprehensive Scan technology performs a detailed scan of the frequencies from over 130 organs, cells, bones, and chromosomes. Frequency optimization will pick up anything out of range and will generate canceling frequencies that will help you balance your organs or system to achieve a state of homeostasis (complete balance).

1. Organs and Cells Report-Covers the cerebral cortex, brain sagittal, pancreas, prostate, liver, kidneys, lungs, blood, meninges, adrenal, cells, digestive system, skin, thyroid, gastrointestinal, chromosomes, basal ganglia, breasts, female sagittal, mitochondria, rectum, reproductive system, stomach, and urinary.
2. Vein's report-Covers the head, upper body, lower body, arms, and legs.
3. Skeletal report-Covers the skull, teeth, spine, ribs, arms, legs, pelvis, hands, and feet.
4. Nerve's report-Covers the brain, head, upper body, lower body, legs, and arms.
5. Connective tissues report-Covers the spine, eyes, hips, shoulders, elbows, feet, and knees.
6. Body parts report-Covers the muscles, head, arms, legs, hips, torso, neck, heart, ears, and lymphatic system.
7. Arteries report-Covers the head, arms, upper body, lower body, and legs.

The Subtle Energy Frequency Imprinter (SEFI) technology is designed to capture, amplify, and imprint subtle energy frequencies and can broadcast to Veterans. Examples are anti-depression, anti-anxiety, anti-trauma, sleep disorders and overall positive frequencies of peace, calm and tranquility. The broadcasting and imprinting categories included in this technology are:

1. Quantum Reach-Wide selection of categories to imprint or broadcast specific frequencies to emotions and body functions.
2. Quantum Frequency-Wide selection of categories to imprint or broadcast frequencies for specific physical functions.
3. Quantum Affirmations-Wide selection of affirmative frequencies to balance emotions.
4. Quantum Flowers-Frequencies extracted from a wide selection of flowers to target emotional issues.

5. Quantum Chakras-Seven different chakras frequencies to balance energy.
6. Quantum HomeoEnergetix-Frequencies extracted from flowers and other natural elements.
