

APRIL 15-18, 2019

IMS MAP360

NORWOOD, MA

This 4 day course will provide students with the necessary instruction to successfully use IMS Map 360 to create courtroom ready crash scene diagrams. The “fundamentals” of Map360 will be covered as well as the import of total station data, RTK GPS data and georeferenced orthomosaic images from photogrammetry software such as Pix4D. Use of 3D point cloud data will be highlighted. A 30 day full feature trial version of Map360 software will be provided at the training for each student. Each attendee is required to bring his or her own laptop computer. Acceptable laptop specifications are posted on our website.

***Price is \$1,095 per seat after March 15, 2019**
