UAS Part 107 Ground School and Flight Training

This three day (24 HR) training will prepare the student to take the remote pilot knowledge exam to obtain their FAA Remote Pilot Certificate and provide the skills necessary to become a proficient UAS Pilot in Command.

Course Highlights:

- Remote pilot knowledge exam test preparation including the required topics of:
 - Regulations
 - Airspace and Requirements
 - Weather
 - Loading and Performance
 - Operations
- Practice test questions reviewed with instructor
- Access to practice exams
- ASA 2020 Remote Pilot Test preparation guidebook.
- UAS equipment familiarization
- Pre and post flight checklists
- Proper drone set up and breakdown
- Hands on flight time for flight proficiency including night flight
- Flight and mission planning
- FAA authorizations and waivers
- Required night flight training for night operations

Training is provided by an FAA Remote Pilot with specific Public Safety knowledge and proficiency.
