

OCTOBER 27-29, 2020

PIX4D TRAINING FOR PUBLIC SAFETY

PEKIN, IL

This 3 day course will provide attendees the necessary instruction to successfully process a crash or crime scene using aerial photogrammetry with Pix4D Mapper software. This training provides a “crash/crime scene to courtroom” workflow utilizing Pix4D generated orthomosaic images and point cloud data in the most common third party software. Use of the Pix4D Capture Application as well as other third party field mapping / flight planning software will be covered and demonstrated to provide best practices at the scene. This course consists of classroom lecture, hands on work projects and field exercises. Each attendee is required to bring his or her own laptop computer. Acceptable laptop specifications are available on our website.

Pix4Dmapper

15 day full access Pix4D Mapper license provided to each student.

DJI aircraft will be provided for field excercises.
