RAPTLY.
Web Solutions Pvt Ltd

Company Introduction
At Raptly Web Solutions, we're driven by a passion for innovation and a commitment to solving real-world problems through cutting-edge software solutions. We understand that in today's digital age, software is the backbone of business operations and the catalyst for growth. That's why we've dedicated ourselves to crafting exceptional software products that empower organizations to thrive in an ever-evolving landscape.
Our Vision: *Empowering Success through Software Excellence*

Job Description
We are looking for a Full Stack Developer to produce scalable software solutions. You'll be part of a cross-functional team that's responsible for the full software development life cycle, from conception to deployment. As a Full Stack Developer, you should be comfortable around both front-end and back-end coding languages, development frameworks and third-party libraries. You should also be a team player with a knack for visual design and utility. If you're also familiar with Agile methodologies, we'd like to meet you.

Requirements and skills
- Understanding in developing web applications
- Familiarity with common front-end and back-end JS stacks

- Knowledge of multiple front-end languages and libraries (e.g. HTML, CSS, JS, React, NextJS, ES2020 above)

- Understanding of client - server architecture

- Understanding of any ORM JS tool (preferably Prisma)

- Proficient in writing code for Node.js

- Proficient in using VS (Visual Studio) Code editor, GitHub, Shell

Responsibilities
- Work with development teams and product managers to ideate software solutions
- Build the front-end of applications through appealing visual design

- Develop and manage well-functioning databases and applications

- Write effective APIs

- Test software to ensure responsiveness and efficiency

- Troubleshoot, debug and upgrade software

- Create security and data protection settings

- Build features and applications with a mobile responsive design

- Write technical documentation
