

HOME INSURANCE/WARRANTIES

As a buyer it is important to check on coverage, rates, flood zones, & previous claims before submitting a contract or in your option period of the contract. Once you have chosen an insurance company, let us know so we can inform your Mortgage Company if applicable & the Title Company

A Home Warranty is not the same as Homeowners Insurance, nor is it a replacement for homeowners insurance. A Home Warranty is a service contract that covers essential appliances and home system components when they break down due to normal wear and tear. Usually they are items that most homeowners insurance policy's do not cover.
