

VacuumCube

RESIN & HARDENER DEGASSING

- Modular system for degassing of resin with a capacity of up to 60 kg/min
- Implementation of a smart heat recovery technology for an efficient energy usage
- Highest degassing efficiency by an innovative thinfilm method
- Can be used as a stand-alone system for an IBC to IBC degassing as well as a supply system for a ResinMix DI system
- Optional: continuously online control and logging of the degassing quality
